ZAPPER

Dr. Hulda Clark introduced the **Zapper**, also known as the parasite zapper, as an aid to health over 15 years ago, in her book "The Cure for All Diseases". Since then the zapper has experienced a tremendous surge in popularity, not only as a curiosity and a health aid, but for other uses as well such as killing microbes such as protozoa and bacteria in water

The **ZAPPER** can be used to combat a host of different illnesses and complaints. Dr. Hulda Clark is a scientist with a tremendous record of achievement and who has carried out pioneering work revealing that the Zapper simultaneously kills all kinds of invading organisms, such as Parasites (Flukes), Bacteria, Mites, Viruses, Growths, Fungi and Roundworms. The Zapper is a device that works by mild electrification and purification of your blood. According to Dr. Clark, bacteria and viruses disappear in 3 minutes; tapeworms, parasites and roundworms take 5 minutes; and mites take 8 minutes.

ZAPPERS HAVE BEEN USED TO COMBAT:

PARASITES, VIRUSES, BACTERIA, SARCOMAS, LEUKEMIA, ARTHRITIS, CANDIDA, DEPRESSION, DIABETES, MUSCULAR DYSTROPHY, RHEUMATISM, CHRONN'S DISEASE, INFLAMMATIONS, PAINS, ARTHROSIS, MUSCULAR PAINS, ME, HAIR LOSS, ECZEMA, SINUS PROBLEM, INFLUENZA, HERPES, THRUSH, SHINGLES, CYSTITIS, ENDOMETRIOSIS, HEADACHES, ALLERGIES, INFECTION, PRURITUS, PARKINSON'S, ALZHEIMER'S, MIGRAINE, RASHES, WORMS, MITES, POLIO, PROSTATE AND BLADDER PROBLEMS, PSORIASIS, GANGRENE, BACKACHE, INFECTION, FUNGI, WARTS, NEURALGIA, etc.

For more information refer to Hulda Clark's books:

"THE CURE OF ALL CANCER";
"THE CURE OF HIV AND AIDS" &
"THE CURE OF ALL DISEASES"

SIDE EFFECTS: NIL

DURATION OF THERAPY: 30 MINUTES EVERY DAY FOR 45 DAYS

By using the Zapper once a day for six weeks, you may reduce the entire population of invading organisms to virtually zero.

This unit is the most advanced Zapper on the market. It is controlled by a microprocessor that allows maximum precision and practicality of usage. You don't need to look at the clock to time the sessions and breaks. You can relax and do other things - watch TV, read, meditate, etc - and the device will let you know with a sound signal when to hold the handgrips.

(BECAUSE WE CARE FOR YOU)

What is a Zapper?

The zapper is a simple but very effective electro medicinal device. It is based mainly on the lifelong research of Dr. Hulda R. Clark who has published her findings in the book "The Cure of all Diseases" and other subsequent books. Dr. Clark like many other researchers has found that a weak current of pulsed DC kills parasites in the body.

This includes all types of worms, bacteria, viruses and fungi as well as cancer cells and other pathogenic tissue. Here is an interesting connection to W. Reich's findings that led him to believe that cancer cells were new parasitic organisms formed from the decaying biomass of de-energized tissue.

Dr. Clark, a molecular biologist and natural healing practitioner, has studied parasites all her life and the zapper was only the last step in her evolving treatment philosophy. She arrived at the conclusion that practically all diseases are caused by either parasites or toxins.

The US Center for Disease Control (CDC) has found that the average American carries a weight of 500g living parasites. Toxins in our food, household chemicals and the environment are weakening the barrier of the colon against penetration by intestinal worms and other parasites.

Photograph of worms killed in the first few minutes of zapping during a colonic irrigation treatment

A major source of toxicity are dental amalgams, which should be removed immediately and replaced with either gold fillings or modern compound ("white") fillings.

HISTORY OF BIO-ELECTRIFICATION

Apart from Hulda Clark, other researchers have arrived at similar conclusions:

In the Fall of 1990, two medical researchers, **Drs. William Lyman** and **Steven Kaali**, working at Albert Einstein College of Medicine in New York City made an important discovery. They found that they could inactivate the HIV virus by applying a low voltage direct current electrical potential with an extremely small current flow to AIDS infected blood in a test tube. Initially, they discovered this in the lab by inserting two platinum electrodes into a glass tube filled with HIV-1 (type 1) infected blood. They applied a direct current to the electrodes and found that a current flow in the range of **50-100 microamperes** (uA) produced the most effective results. *Practically all* of the HIV viral particles were adversely affected while normal blood cells remained unharmed. The viral particles were not directly destroyed by the electric current, but rather the outer protein coating of the virus was affected in such a way as to prevent the virus from producing **reverse transcriptase**, a necessary enzyme needed by the virus to invade human cells. Reverse transcriptase allows the virus to enter a human **T cell** line (called **CEM-SS**) and commandeer the DNA reproduction machinery. After using the host cell to reproduce itself into thousands of new virii, the swollen host cell (now called **syncytia** or giant cell) will burst and spew the contents into the bloodstream or lymph system. This is how the virus spreads, but lacking reverse transcriptase, the HIV virus can't invade the host cell and it becomes vulnerable to destruction by the body's immune system.

How does it work?

The following text is from Don Croft's account of his Zapper, the Terminator.

All parasites and diseased tissues are positively charged. The zapper introduces negative ions through the skin and into the body's living tissue, killing the parasites by reversing their polarity and also helping to heal the diseased tissue. Healthy tissue is negatively charged. The zapper's circuitry is built around a 555 timer integrated circuit which emits a nice, positive offset square wave of direct current from a nine-volt battery (stepped down to around 4.5volts and 3.5milliamps) at a frequency of about 20,000 times per second. "Positive offset" is a wave form that has alternating current characteristics. This may be important in the long run because it won't alter the body's natural electromagnetic field polarity.

Many researches have discovered by different paths that very weak electric current eliminates parasites. Dr. Clark's circuitry, which I use in my zapper, is, I believe, the best design available. She and Geoff Clark, her son, who is an electronics engineer, had the benefit of a clinic in which to conduct their research over a period of years. I also appreciate Dr. Clark's pragmatic approach and her courage in presenting this information.

I feel confident that parasites enjoy and thrive on all the vitamins, herbs and minerals that you send in there to correct the problems that are caused by the same parasites. Why else would these remedies be "hit or miss" solutions? You're only getting leftovers.

After you start using a zapper, when you eat those expensive herbs, vitamins, and minerals, I believe that you, instead of your non-paying passengers, can expect to have their benefits.

They can't defend their positive polarity (shortage of electrons) against the introduction of simple direct current, however, and they die very quickly in its presence (the worms in the

picture on my website were freshly killed in the colon after a few minutes of zapping during a colon irrigation). Negative ions kill parasites whether they are from electric current, ozone, or magnets. The zapper seems to me to be the most efficient delivery method for now.

Parasites not only die when subjected to electricity, but disintegrate and are easily eliminated or assimilated as harmless nutrients. In fact, since they got most of the benefit from all the expensive supplements that you've been eating all these years, this could be your big nutritional payoff.

Viruses and fungi inside the cells, parasites in cysts, parasites with exoskeletons (like hookworms in the peripheral tissues), etc., will take longer to kill, but clearing the blood and lymphatic fluids, major organ ducts, intestinal and stomach lining, brain and central nervous system, of parasites early on will give your immune system a tremendous, immediate boost and when the hidden parasites come out of cysts and protected areas they are in for an unpleasant surprise.

This is only done to efficiently move the weak current through the skin, which is the body's capacitor and protects our inside from random electrical charges, like static, which could otherwise harm us. Dr. Clark states that you can get adequate results from simply holding an electrode from one battery terminal in one hand and tapping an electrode from the other battery terminal with the other for ten minutes, but that the zapper's frequency is simply a more efficient way to get the current into the body.

May we not create a mystique about connecting the zapper's frequency to the resonant frequencies used by the Rife technology? Careful reading of pp1-41 of THE CURE FOR ALL DISEASES will clear this up.

I must be noted that neither Don nor we are still using frequencies in the 20,000 Hz range. Our Zappers oscillate at about 15 Hz and we have found this to more effective in that the lower frequencies allow the current to penetrate deeper into the body.

Zappers do not kill parasites because of certain frequencies. This is often confused, when you see other producers of Zappers advertising their various frequency ranges. The zapper kills parasites and dissolves pathogenic tissue, because of it's delivery of electric charge, not because of the frequency resonance phenomenon. This is acknowledged by Hulda Clark when she speaks about tapping your finger at the second pole of a battery.

Which diseases can the zapper cure?

The word *cure* has to be used with caution, not so much for lack of conviction but rather for the known efforts of the medical establishment to discredit any invention or healing method that poses an effective threat to their medical paradigm. (and license to print money) I refer to our general disclaimer in this respect.

Positive and often dramatic results are known for the following diseases:

CANCER

HIV / AIDS

HERPES

ORGAN TRANSPLANT REJECTION

VIRAL HEPATITIS

SINUSITIS

WARTS

PSORIASIS

INFLUENZA (THE GENUINE ONE)

GENERAL WEAKNESS OF THE IMMUNE SYSTEM

PMS

and many other conditions caused by parasites, bacteria and viruses.

All Zappers are based on the original Hulda Clark circuit with modifications empirically arrived at by Don Croft especially the lowering of the frequency to 15Hz.

We offer healing on two types of the Orgone Zapper (with copper, silver or gold electrodes), based on the Don Croft Terminator which has additional features that make it's wearing more pleasant and enhance the subtle energy aspect of the device (orgone). A Mobius coil in the circuit emits a scalar electromagnetic field, a form of multidimensional electromagnetic field very similar to aspects of Orgone energy. A block of Orgonite gets excited by the electromagnetic vibration and emits a protective healing Orgone field (see "What is Orgone") This is supported by two gemstone crystals that are wound by the leads leading to the electrodes, an amethyst and a garnet both stones, having known vibratory healing properties of note get additionally excited by the current flow in the windings around. A fairly strong rare earth magnet helps the energy fields to penetrate deeper.

This Zapper is plainly an electrical device, which is quite sufficient to kill the parasites as described by Dr. Hulda Clark. It is light and easy to wear by adding an elastic strap, so it can be worn at the wrist or upper arm conveniently.

Let's have a look at the orgone generating components of the orgone zappers:

The interior of a zapper.

This is what these components are doing:

- **PC Board:** generates 15Hz pulsed direct current. The basis of zapping.
- **Skin Electrodes:** transmit weak electrical pulses to skin
- **Moebius Coil:** creates scalar electromagnetic field (has to be contained by boundary wire)
- **Orgonite Block:** gets excited by electromagnetic components and creates beneficial orgone (Chi / Prana) field
- **Neodymium Magnets:** have noted healing power by themselves
- **Amethyst:** mental clarity and peace, anti-inflammatory and pain relief
- **Garnet:** vitalizing, support resistance and resilience

Zappers come with an elastic strap that makes them easy to wear.

Easy to wear

Everybody should have a therapy with zapper as a first line of defense against any oncoming disease.

PREVENTION IS BETTER THAN CURE.

Specifications:

Frequency: 15 Hz pulsed DC

Battery: 9V PP3

Electrodes: **Copper / .9999 fine silver / 2 x 1g 24 ct Gold .**

Removable Velcro Strap

2.5 mm micro socket for external devices

Neodymium Magnet 10.3 x 3 mm

Mobius coil, protected by boundary wire

Orgonite block

Amethyst crystal coiled into "tail" lead wire

Garnet crystal coiled into "head" lead wire

LED to show on/off status

Our **Orgone Zappers** (Orgone energy enhanced - Clark Zappers) are your **first line of defence against dis-ease**.

Wear it regularly for at least half an hour per day and you will experience much improved health and energy.

Orgone Zapper Standard:

Powerful Orgone Zapper with tried and trusted copper electrodes. Very good value for money.

Orgone Zapper Silver:

Enhanced with fine Silver Electrodes (.9999 purity) for effects like colloidal silver through your skin

Orgone zapper with pure silver on your skin!

All components are identical to the **Orgone Zapper Standard**, only that the electrodes are made from **.9999 fine silver**.

This may have the added benefit of inducing traces of **colloidal silver** via the skin.

Many users have also noted a **positive vibrational quality** of the silver.

Please note: The pure silver does easily oxidise on skin contact, especially with the effect of electrical current. This can cause black spots to appear on your skin. They are not easily removed with soap but disappear on their own after a few days. (silver salts) They are not harmful, but you may not like them for esthetic reasons.

If you feel that this could be of concern for you, please chose the Orgone Zapper Standard or the Orgone Zapper Gold.

Orgone Zapper Gold:

24ct pure gold electrodes. Deluxe model for great conductivity and no corrosion

This is clearly the top of the range: 24ct golden electrodes!

Gold will not discolour or stain but beware it's original purity and sheen under prolonged use.

We have found this orgone zapper very pleasant to wear.

If you value your health and your wellbeing, you may find you are worth this investment!
All components are identical to the **Orgone Zapper Standard**, only that the electrodes are **2 x 1g 24 ct Gold** .

In my mind everybody should have one and use it regularly. It's just like brushing your teeth: **A matter of basic hygiene.**

Use daily for (6 weeks) 45 days in a row for BEST results.

Rs.750/- for a 30 minute sitting.

ORGONE STANDARD COPPER ZAPPER	RS.7,500/-
ORGONE SILVER ZAPPER	RS.15,000/-
ORGONE GOLD ZAPPER	RS.30,000/-
S&H charges	RS.300/-
