/PND/ WEEK IN REVIEW Anonymous 10/01/22 (Sat) 19:10:58 08a529 [No.355337](#) [\[Last 50 Posts\]](#)

Every Saturday we like to do a wrap up of the weeks big events here in /pnd/

Our team of hard-hitting investigative observationalists takes a closer look at the threads you might have missed in the fog of noise.

So put down that videogame controller and relax, as you enjoy this week's highlight reel.

FECAL MATTER is a woman in France, who has reinvented herself, creating a totally unique concept based on her lifelong realization that she doesn't 'fit in' with the rest of the human race. She's a gifted artist and designer, who envisions the World Through The Eyes of an alien, and has created her own fashion designs, and has become quite wealthy selling her one of a kind outlandish clothes and accessories.

The woman behind the disturbingly well executed makeup and somewhat frightening alien exterior is actually an extremely beautiful human being, both inside and out.

She's actually gorgeous...

And and she has a really cool perspective on life, about how humans are garbage, how we treat the planet and treat all other living things including ourselves.

Yet she maintains a very optimistic positive outlook, because in her own little world, she sees the beauty in nature....

she was featured in this real because she is a perfect example of HOW TO NOT USE UNORIGINAL IDEAS

There are certain uncreative unoriginal people out there who angry metal music and satanic pentagrams and contrived cheesy skulls appear intimidating to other people...

FECAL MATTER (matieresfecales) proves that you don't have to rely on cookie-cutter cheesy SKULLS & DEMONS to appear "intimidating"...

In fact, using Graphics of pentagrams and skulls and Googling Latin words doesn't appear intimidating at all, and actually makes you look like a little child whose dazzled by the Walmart Halloween decorations...

fuck you, dork gnostic

also, what would you expect from spending your life looking at fake profiles, featuring hideous women?...

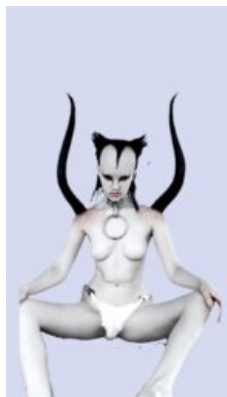

success?

You'll never accomplish anything until you GO OUT THERE INTO THE REAL WORLD AND TRY

matieresfecales is hot as fuck

And I don't go for the "evil" thing at all

it's cheesy

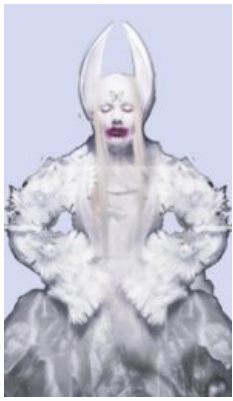

BUT NOT HER VERSION

she pulls it off masterfully

she's got a boyfriend, who's just as comfortable wearing female alien clothes as male alien clothes...

he helps her create their bizarre latex prosthetic outer body suits and they both do each other's makeup...

And they are experts at applying perfect subcutaneous veins and "fungus growing under the skin",v something between a corpse and a space alien

They have a hairless cat, and they live in a beautiful luxurious high-rise apartment in France, where they create the designs and sell them for outlandish prices online, and travel the world making public appearances and enjoying life on their terms..

And she is super super hot

But she's also a genius

She's created exterior latex bodies, like a jumpsuit, and they feature deformed feet and humps in the back and Tails and horns...

And they have veins painted onto them, with many of them appearing to be a mixture between spores of fungus growing and other biological entities mixed into the vein work...

Simply for their ability to do vascular makeup effects alone, she and her weirdo boyfriend deserve a Hollywood award..

But it doesn't stop with just the makeup.. she's actually quite disturbing

You might be surprised to discover the woman behind the makeup is actually gorgeous, with a beautiful face and a soft sweet smile. ..

But she is disappointed by the human race

That's how I stumbled onto her...

I've also never felt like I was part of the same species I see destroying themselves everyday...

There is no God and we are cancer

and in creating her own unique look, she managed not only to make quite a living from her designs, but she also reinvented what it means to be "dark and intimidating"....

[>>355346](#)

She's making fun of your childish belief in demons

she's also ridiculing your ridiculous belief in an imaginary Jesus

If you want to find 'demons', look no further than the bottle of alcohol in your hand....

If you're looking for true evil, look no further than the man who wears horse blinders, convincing himself he's a good person, as he pays money for animals to be tortured and murdered, just so he can have 45 minutes of indigestion, literally destroying a living things entire life, just so he can have indigestion and convince himself he's living a good life...

Now, imagine a day when you don't have any photographs of vaginas stored up because you have no need for them....

imagine having the courage to go into the restaurant and convince them to show you its seat so you can enjoy a meal, instead of standing outside on the sidewalk staring in through the front window...

All of the customers have been watching you stare at them, and it's a bit off-putting.. they're trying to enjoy their meals

INTERESTING

HUMAN

LACK OF

PERCEPTION :

The only reason I'm here is because I enjoy making silly sketch pad digital art, quickly throwing together visuals using digital editing apps..

It's pretty obvious, and I've been doing it "since way before MySpace", as killcen so eloquently stated.....

In fact, it's fair to say that every word that comes flowing out of my often garbled speech to text is nothing more than a justification to continue posting my silly little digital artwork, just for fun..

Just for fun

Just to entertain myself.. that's all I'm doing.. entertaining myself

Other people's entertainment is not my problem....

Other people's approval has never been an issue...

I'm here exclusively to keep myself entertained, and I'm pretty damn good at it....

But other people seem to have a lack of perception that I find underwhelming...

They seem to think I give a flying fart about their opinions, that they are somehow in control of me and my self entertainment process... they convince themselves that they said something that made me angry, and I suddenly started spamming out of frustration or something LOL

They make the foolish mistake of assuming my world resembles the bleak dismal landscape of video games and isolation that they have sentenced themselves to...

But I think one of the weirdest mistakes I see them make is when I feel like creating a digital doodle of somebody to with a giant nigger dick in their mouth, or any other number of possible weird creepy sexual visual images I might want to throw together to make fun of somebody...

Because I've seen you video game douchebags accuse me of " having gay porn downloaded on my computer"...

lol

Number one, I'm not like you, so I don't even use a fucking computer...

Number two, if I want to create a graphic of a pizza delivery boy refusing to have sex with a beautiful woman in exchange for a pizza, even if she pays for the pizza.. of course I'm just going to source images of pizza delivery boys and beautiful naked women...

It's not like I'm going to dig through my folders of pizza delivery boy photographs....

Pornography is Visual and Psychosexual CANDY for the learning impaired. ..

It's really not that hard to get a woman in your bedroom spreading her legs and pulling your vagina wide open and letting you take your sweet time staring at it before you blow a few loads into it

All of my girlfriends and wives learned how to pose for me...

It's not like I'm going to have a relationship and fail to explain what I want, so of course they quickly learn how to keep a man visually happy...

I used to be a strip club DJ for almost 10 years.... and I had a lot of time to stop and reflect on sexuality and the desires of men versus the woman's perspective...

Having nude women being my job, I learned to perceive what separated the strippers from the average woman, why the strippers existed in the first place...

That's why I always ask new girlfriends a few certain choice questions, one of which has always remained the same :

"WHY DO PORNOGRAPHY AND STRIP CLUBS EXIST?"

It's really simple...

'MEN ARE VISUAL ANIMALS

WE WANT TO SEE IT

But most men don't have the Panache or courage to explain what they really want to their wives....

We want to see it...

And that's why most wives have never just sat there in front of their husbands with their snatch pulled wide open, posing an open vagina... not a big special event, but an everyday relax session, where she pulls her whole wide apart, and listens to music wow you do your thing and occasionally look over and stare at it before you decide to Pummel it....

LIVE PORN...

That's why married men go to strip clubs..... because although they managed to get wives, they still never took it all the way, and they live a repressed relationship, due to unspoken desires...

But that's quickly solved by explaining that men are visual animals, and that's why we gravitate to pornography and strip clubs.. that's where we will find women comfortable with opening their vagina for the world to see...

And that's exactly why all of my wives and girlfriends were in the practice of doing things more visually forme.

It's really just a matter of them getting over the first hump, because it's a feeling of open vulnerability that most people aren't accustomed to...I..

But oddly enough, women always seem to gain a brand new sense of self-confidence after getting over that hump, and soon enough they are upping the game, making sure you have the best "camera angle" while they are fucking and sucking...

Because most sex is very moderate in reality, with the majority of couples living in horrible existences, where the woman and comes out of the bathroom wrapped in a towel and she slips under the blankets and turns out the lights, and they have sex without actual seeing what they're doing....

The way to avoid that horrible fate is through communication

And once women understand it from that perspective, from that point on they will start performing in a more visual manner, supplying you with endless visual memories..

Oh the stories I could tell you

But that's why pornography is Visual Candy for the learning impaired.. those who are too stupid too figure out how simple it is to have a woman let you stare into her vagina as you tell her you're about to stretch her asshole loose, as soon as you finish rolling this joint....

Women enjoy sex too

You really don't have to continue behaving like a dork anymore

And it begins by deleting all the pornography and childish anime and throw away the video games and grow up God damn it

If you're going to continue behaving that way, you'll never get what you actually wanted in the get what you actually wanted in the first....

The reason you are downloading pornography is not to create a digital "troll" graphic....

You are downloading adult content because you are interested in vaginas

You can see all the vagina you can handle in real life. But you've got to stop behaving like a guy who doesn't get any vagina....

Believe it or not, women can read your aura, so to speak, for lack of a better term...

If you're the type of guy who has a bunch of porn downloaded, that energy field surround you, and women have an intuitive radar.....

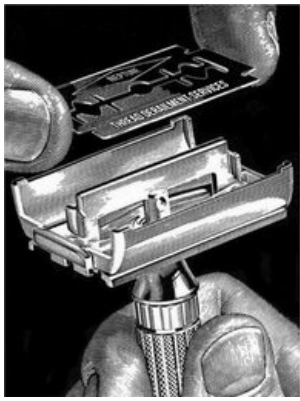

They're looking for guys that don't download porn...

So it's self-defeatist

Most women can never figure out why their husband went to that strip club or why they found the pornography on the laptop...

They think it's for romantic or emotional reasons...

They don't realize how simple it is, because their stupid cowardly husband was too afraid to explain it to them....

But once a woman realizes by spreading their legs and closing their eyes and becoming a "live porn shoot", your husband will come running home after work, and you couldn't pay him to go to a strip club anymore....

It's not dehumanizing or objectifying

It's completely natural, because even cavemen were visual animals...

Women approach sex from their hearts and Minds.... emotions....

and men approach it with our EYES.....

It's really just a matter of her I'm getting over the initial hump of insecurity and feelings of vulnerability....

But it's interesting how quickly all of those insecure feelings disappear once they gain a newfound brilliant sense of self-confidence, attained from the simple act of becoming a visual sexual participant

I literally have no recollection of creating this little song.. none.. but I definitely created it. I made it from scratch using a smartphone instead of a computer...

I use CAUSTIC 3 for android, beginning with the creation of the drums and then working my way upwards..

It's just a little musical sketch pad.. the musical equivalent of one of my silly graphic images I create just for fun in here...

Just something to pick me occupied.. I can't imagine allowing myself to become bored with life, so that's how I ended up becoming an artist and learning how to create my own music...

Just keeping myself occupied

lol wow!

He ain't gonna stop 'til (You) do!

Actually, **He ain't gonna stop** no matter *what* (You) do!

If anything, he has ramped up over the last decade, and no one is going to dislodge him, let alone *"put him on his place"*. **He already is**. Yup. He *belongs* here. He ain't goin' nowhere. He never has, and he never will — certainly not by choice. Recognizing the Toxicity of his stance, one has no choice but to employ a strategy of Containment. Luckily, he is Easily Contained. **He practically Contains Himself!** That's why he's here, actually...

Some folks cannot control their own behavior, yet seek to control the behavior of others, or at least have everybody *"else"* experience the same *lack-of-control* that *they* feel. They're Institutionalized. They feel more comfortable when someone *"else"*, someone they see as being in a position of authority, is telling everyone what to think & what to do. They do not trust *"Others"* to think and act for themselves, from a position of Authenticity, because **THEY DO NOT TRUST THEMSELVES!**

People like that want to Enforce **"Mob-Rule"** on EVERYONE. **"Johnny"** was the guards' little butt-buddy in jail — a regular prison snitch. Nothing has *ever* changed with him. He is not even *open* to deep personal changes! He just wants to change everything *"Else"*; Out *"There"*! Maybe tear down some *Statues Unto Insubstantiality!* He continues to Refuse to **LOOK WITHON**. **But he is right where he belongs**. And there is much (You) may learn from him yet! And **Hell Yes!** He **WILL** get *"under your skin"*! (He obviously already *has!*)

Highly suggesting playing Johnny like you would a musical instrument. He is much like a Suona, (a Chinese Trumpet), a loud & obnoxious double-reeded instrument. **He has his place, and his place is here.**

The common root causes of all experiences including emotions are the experienter's own fixed ideas, preconceptions, own rules, beliefs, biases, memory, judgment criteria, etc. As long as the sense of values does not change, the person repeats a similar experience. The stronger the attachment, the stronger the emotion.

How to interpret, react and deal with information is entirely up to each interpreter. "Disturbance of society, words, clothes, and morals" is a self-projection of the disorder of the person who feels it.

Dissatisfaction, anxiety, discomfort, scary, distrust, discomfort, and mystery are caused by each person's stereotypes, so it is irrelevant to blame others. Those who give inconvenience to others also gain inconvenience.

Therefore, even if you make someone angry, you have no cause for the other person's anger. Conversely, if someone offends you, the person has no cause for your anger.

Tolerant people who punish others, have low independence, have low problem-solving ability, and care about external evaluation need manners, courtesy, rules, and laws for emotional stability and self-defense.

Just bag him and deliver him to justice.

I was visiting San Paulo back in '79, when I accidentally got the cuff of my pants leg hooked to the shell of an irreverent tortoise...

As I was bending over to free my pants leg, the tortoise began slowly moving forward, knocking me off balance and flat on my back...

That piece of shit tortoise slowly dragged me around for the better part of 2 days, through some of the bumpiest terrain in San Paulo...

I tried reasoning with him but tortoises don't seem to understand English...

it was horrible

I'm still somewhat traumatized

the worst part ?

the tortoise feces

I've heard about those Sao Paulo tortoise problems.

They are insidious and move so damn slow that you hardly notice until they start snagging pant legs.

You've got to wear shorts and well fitting leather boots that fit snug up to the knee caps.

This strategy is also effective defense against scorpion and venomous snakes.

Tortoise feces are of least concern.

When I was 11 years old, I developed a massive crush on a deaf girl that moved into the neighborhood...

She was a tall skinny blonde headed 10 year old (I've always liked them young) who was not only deaf, but also had buck teeth, but I thought they were really cute. She couldn't hear, so of course she made the classic deaf person noises when she talked :

"BWUHHH BUHH DAWWBWUBB BWUHH!"

I had a huge crush on her, even though I was too young to understand anything about sexuality....

I've always regretted not sexually assaulting her because I wouldn't have gotten in trouble
