

April 2, 2021

I, a Sovereign being of sound mind and competent of the Law, hereby remove my consent from the following items, as well as make the following affirmations:

1: Federal Reserve Notes:

Being merely promissory notes with no attached or redeemable intrinsic value since 1965, all US Federal Reserve Notes are colorable. They are “legal tender” that is only capable of discharging debt and not Lawfully paying debt in any way. The continued use of Federal Reserve Notes defrauds all living souls who both “pay” and “accept” to engage in commerce of any kind. Unless there is a Lawful contract formed by two or more living souls capable of having a true meeting of the minds and an alternate exchange of consideration is agreed upon, the use of these colorable Federal Reserve Notes is compulsory to engage in commerce or trade of any kind. Any continued use of Federal Reserve Notes to procure food or any other day to day necessities is under duress, and I will not be held liable for any injury or assumed responsibility for their continued use as I do not consent to their use in any way.

2: Governmental Representation:

Since the date of March 27, 1861 when the Congress of the united States of America was adjourned “Sine Dei” and was never reconvened, all Lawful representation of the People for our Constitutional Republic was lost. In order to circumvent this crisis a fictional corporation called THE UNITED STATES OF AMERICA was filed for and created in the Sovereign Nation of France in 1871. This fictional entity was deemed a “Legislative Democracy” and has a different constitution that was enacted by and accepted “on the behalf of the people” by agents representing this fictional corporation. It has been raping, pillaging, defrauding and murdering with

impunity ever since it's inception and I do not consent for any acts or actions it takes now or in the future, including but not limited to, the crimes of levying war against other Sovereign powers and people under false pretenses, the trafficking of drugs, weapons and people for profit and with the intent to weaken, control and subvert, Theft, Racketeering, and many other such crimes against Humanity. This fictional corporation masquerading as a government does not have the "consent of the governed".

3: Legal Joinder and Trusts:

Upon the incarnation of a living soul into this realm, a BIRTH CERTIFICATE printed on BOND paper is signed by the parents of that soul. That BOND is then CAPITALIZED and used to create a Trust that is traded on the open STOCKS and BONDS market that the fictional entity UNITED STATES OF AMERICA then puts up as collateral to be lent colorable Federal Reserve Notes with interest. Such acts are a travesty and can be characterized as human trafficking. Since no parents of sound mind would sign their child over into indentured servitude, this act would only be committed by the ignorant and insane. Any contract enacted by individuals not of sound mind is colorable. I do not claim to be the beneficiary of any trust. I do not consent to be presumed to be the executor, administrator or beneficiary of any trust, unless written permission and informed consent is given by me, the living Sovereign being.

4: Legal Joinder to fictional entities and Agents representing fictional entities:

I do not consent to any assumption or implication to be an asset or agent or signatory representing any fictional entity or corporation. These include, but are not limited to, the following fictional entities:

CITIZEN

US Citizen

RESIDENT or Resident

PERSON or Person

Chattel

Any documents or contractual agreements I have signed in the past affirming I am any of these previously listed or ANY other legal fiction was executed while not being of sound mind, without informed consent of all contractual obligations said legal joinder provided. All previously engaged contracts of such construction are colorable. I live in the private. Therefore I am ineligible to be considered contractually bound to any commercial regulation, statutes, policy, codes, Maritime Law, or Special Maritime Jurisdiction.

5: My Word is My Bond:

As a responsible, Sovereign being, of sound mind, I understand that my word is my bond. It is my responsibility to provide any educational material and knowledge and any assistance to any living breathing soul, man or woman, who seeks out this knowledge base about the Law of the Land or Common Law or Natural Law, or simply inquires about any further information thereof, to the best of my ability.

6: The imperfect Human Being and being in error:

I understand that Human beings are imperfect and capable of making mistakes and being in error. I will strive to always only tell true, factual information and I will never knowingly tell a lie. However in this time of mass confusion and rampant propaganda I recognize that it is easy to unknowingly spread false information as some things are unverifiable. Should it be brought to my attention that I have unknowingly committed such an act, I vow to always try to rectify the situation to the best of my

ability.

7: Taking Responsibility for Myself and My Own Actions:

Being a competent being of sound mind, I hereby take responsibility for myself and my own actions. I vow not to purposely cause injury to any other living soul's being or their property. If a crime that causes injury is being committed against me or my family, or it is plainly intended that a crime that causes injury will be committed against me or my family, I reserve the right to defend myself in any way I see fit until that crime or threat of crime is ceased.
